

V1 List Robot Task Reports

Remarks

Interface Functionality:
This interface is used to query and retrieve detailed reports of cleaning tasks performed by a specified robot. The report typically includes detailed information such as task start time, end time, cleaning area, cleaning duration, and more, helping users understand the robot's task performance.

Applicable Scenarios:
This interface is suitable for scenarios where detailed reports of cleaning tasks performed by robots are required, typically used for statistical analysis, performance evaluation, or maintenance management after task completion.

Restrictions and Considerations:
Request Parameters: When calling this interface, it is necessary to provide the robot ID and time range, among other key parameters, to ensure that the queried task report accurately matches the specified robot and time period.
Data Accuracy: The level of detail in the cleaning task report may be limited by the accuracy of the data collected by the system. It is recommended to adjust the query range according to specific needs.
Permission Control: Access to detailed task reports may be subject to permission restrictions. Ensure the caller has the necessary permissions to avoid access being denied.
Performance Optimization: If the amount of data in the task report is large, it is recommended to use pagination or narrow the query results by time range.
Data Timeliness: Task reports may have a certain delay in generation. Ensure the task has been completed before querying to obtain complete data.

Interface Description

URL	Request Method
/v1alpha1/robots/{robot}/taskReports	GET

Path Parameter

Name	Remarks	Example
robot	Robot SN	TEST0-0000-000-S024

Headers

Name	Parameter Value	Required	Example	Remarks
Authorization	Bearer {{token}}	Yes		

Query

Parameter Name	Required	Example	Remarks
page			
pageSize		100	Query paging size, the maximum size is 200
startTimeUtcFloor		2024-01-12T08:00:00Z	【Deprecated】 The minimum start time range of the task report, in UTC time
startTimeUtcUpper		2024-01-13T07:59:59Z	【Deprecated】 The maximum start time range of the task report, in UTC time
receiveTimeUtcFloor		2024-01-12T08:00:00Z	【Deprecated】 The minimum time when the cloud platform received the robot task report, in UTC time.
receiveTimeUtcUpper		2024-01-13T07:59:59Z	【Deprecated】 The maximum time when the cloud platform received the robot task report, in UTC time
startTimeMin		2024-10-15 00:00:00	Minimum start time range of the task report, robot local time ps: It is not reco

Parameter Name	Required	Example	Remarks
			mmended to use deprecated fields in conjunction with each other.
startTimeMax		2024-10-15 23:59:59	Maximum start time range of the task report, robot local time ps: It is not recommended to use deprecated fields in conjunction with each other.
endTimeMin		2024-10-15 00:00:00	Minimum end time range of the task report, robot local time ps: It is not recommended to use deprecated fields in conjunction with each other.
endTimeMax		2024-10-15 23:59:59	Maximum end time range of the task report, robot local time ps: It is not recommended to use deprecated fields in conjunction with each other.

Response Data

Name	Type	Remarks
page	integer	Current page
pageSize	integer	Paging Size
+ robotTaskReports	array	Robotic Mission Report
total	integer	

Reqeust

```
curl --location 'https://openapi.gs-robot.com/v1alpha1/robots/TEST00-0000-000-B001/taskReports?'
```

```
page=1&startTimeUtcFloor=&startTimeUtcUpper=&pageSize=100'  
--header 'Authorization: Bearer {{token}}'
```
